Tennis player and programmer for life. Looking for new adventures and experiences. Ability to develop relationships with partners, work collaboratively and take initiative to resolve problems and propose innovative solutions to achieve organizational objectives.

EXPERIENCE

School Projects

Skills & Tools: C#, Java, AI, Python, .NET, Algorithms, Node, Javascript

- Developed an Artificial Intelligence agent in C# who was able to learn by himself. The agent needed to find the gold in the minimum weight possible, after few runs he was able to do it by himself.
- Created a query suggester, where you can type queries according to the information you have on your database. The results were displayed in tables using bootstrap.
- Ranked 344 of the world in February on geeksforgeeks.com at resolving problems in python. Profile name: alexjsisi. https://auth.geeksforgeeks.org/user/alexjsisi/practice/

SmartAppTech   **Aguascalientes, Ags**
